1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Leisure Acquisition Corp. (the "Company") is a blank check company incorporated in Delaware on September 11, 2017. The Company was formed for the purpose of acquiring, through a merger, capital stock exchange, asset acquisition, stock purchase, reorganization, recapitalization, exchangeable share transaction or other similar business transaction, one or more operating businesses or assets that the Company has not yet identified (a "Business Combination").

All activity through September 30, 2018 relates to the Company's formation, the Company's initial public offering of 20,000,000 units (the "Initial Public Offering"), the simultaneous sale of 6,825,000 warrants (the "Private Placement Warrants") in a private placement to Hydra LAC, LLC, an affiliate of Hydra Management, LLC (the "Hydra Sponsor"), MLCP GLL Funding LLC, an affiliate of Matthews Lane Capital Partners, LLC (the "Matthews Lane Sponsor," and, together with the Hydra Sponsor, the "Sponsors"), HG Vora Special Opportunities Master Fund, Ltd. ("HG Vora") and certain members of the Company's management team, and the Company's search for a target business with which to complete a Business Combination.

In September 2018, the Company received a \$600,005 reimbursement for expenses that it incurred in connection with the due diligence of a potential business combination that did not materialize.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission (the "SEC"). Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2017 as filed with the SEC on March 9, 2018, which contains the audited financial statements and notes thereto. The financial information as of December 31, 2017 is derived from the audited financial statements presented in the Company's Annual Report on Form 10-K for the year ended December 31, 2017. The interim results for the three and nine months ended September 30, 2018 are not necessarily indicative of the results to be expected for the year ending December 31, 2018 or for any future interim periods.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future events. Accordingly, the actual results could differ significantly from the Company's estimates.

Marketable securities held in Trust Account

At September 30, 2018 and December 31, 2017, the assets held in the Trust Account were substantially held in U.S. Treasury Bills. During the nine months ended September 30, 2018, the Company withdrew \$475,814 of interest income from the Trust Account to pay franchise and income taxes.

Net loss per common share

Net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding for the period. The Company applies the two-class method in calculating earnings per share. Common stock subject to possible redemption at September 30, 2018, which are not currently redeemable and are not redeemable at fair value, have been excluded from the calculation of basic loss per share since such shares, if redeemed, only participate in their pro rata share of the Trust Account earnings. The Company has not considered the effect of warrants sold in the Initial Public Offering and private placement to purchase 16,825,000 shares of common stock in the calculation of diluted loss per share, since the exercise of the warrants is contingent upon the occurrence of future events. As a result, diluted loss per common share is the same as basic loss per common share for the periods.

Reconciliation of net loss per common share

The Company's net income (loss) is adjusted for the portion of income that is attributable to common stock subject to redemption, as these shares only participate in the income of the Trust Account and not the losses of the Company. Accordingly, basic and diluted loss per common share is calculated as follows:

	 ree Months ed Nine 30, 2018	-	line Months nded Nine 30, 2018	fro	or the Period m September 11, 2017 (inception) through eptember 30, 2017
Net income (loss)	\$ 577,649	\$	1,398,825	\$	(5,000)
Less: Income attributable to common stock subject to redemption	(870, 808)		(2,265,679)		
Adjusted net loss	\$ (293,159)	\$	(866,854)	\$	(5,000)
Weighted average shares outstanding, basic and diluted	 6,010,149		5,994,905		6,250,000
Basic and diluted net loss per common share	\$ (0.05)	\$	(0.14)	\$	(0.00)

Recent accounting pronouncements

Management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's condensed financial statements.

3. RELATED PARTY TRANSACTIONS

Administrative Services Agreement

The Company entered into an agreement whereby, commencing on December 1, 2017 through the earlier of the completion of a Business Combination or the Company's liquidation, the Company will pay Hydra Management, LLC, or its affiliates or assignees, a monthly fee of up to \$10,000 for office space, utilities and secretarial and administrative support. For the three and nine months ended September 30, 2018, the Company incurred \$30,000 and \$90,000 in fees for these services, respectively, of which \$4,500 is included in accounts payable and accrued expenses at September 30, 2018 in the accompanying condensed balance sheet.

4. COMMITMENTS

Registration Rights

Pursuant to a registration rights agreement entered into on December 1, 2017, the holders of the shares of common stock prior to the Initial Public Offering (the "Founder Shares"), Private Placement Warrants (and their underlying securities), Private Placement Units (and their underlying securities) (as defined below) and any warrants that may be issued upon conversion of the Working Capital Loans (and their underlying securities) are entitled to registration rights. The holders of these securities are entitled to make up to two demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of a Business Combination and rights to require the Company to register such securities pursuant to Rule 415 under the Securities Act. However, the registration rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriters Agreement

The underwriters of the Initial Public Offering are entitled to a deferred fee of three and one-half percent (3.5%) of the gross proceeds of the Initial Public Offering, or \$7,000,000. Up to \$0.05 per Unit (or up to \$1,000,000) of the deferred fee may be paid to third parties (who are members of FINRA) that assist the Company in consummating its initial Business Combination. The election to make such payments to third parties will be solely at the discretion of the Company's management team, and such third parties will be selected by the management team in their sole and absolute discretion. The deferred fee will be paid in cash upon the closing of a Business Combination from the amounts held in the Trust Account, subject to the terms of the underwriting agreement.

Contingent Forward Purchase Contract

On December 1, 2017, the Company entered into a contingent forward purchase contract (the "Contingent Forward Purchase Contract") with HG Vora to purchase, in a private placement for gross proceeds of \$62,500,000 to occur concurrently with the consummation of the Business Combination, 6,250,000 Units on the same terms as the sale of the Units in the Initial Public Offering at \$10.00 per Unit ("Private Placement Units"). The funds from the sale of the Private Placement Units will be used as part of the consideration to the sellers in the Business Combination; any excess funds from the Private Placement Units will be used for working capital in the post-transaction company. This commitment is independent of the percentage of stockholders electing to redeem their public shares. HG Vora's obligation to purchase our Units under the contingent forward purchase contract is contingent upon, among other things, HG Vora approving the Business Combination, which approval can be withheld for any reason.

5. STOCKHOLDERS' EQUITY

Preferred Stock — The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designation, rights and preferences as may be determined from time to time by the Company's Board of Directors. As of September 30, 2018 and December 31, 2017, there were no shares of preferred stock issued or outstanding.

Common Stock — The Company is authorized to issue 100,000,000 shares of common stock with a par value of \$0.0001 per share. Holders of the Company's common stock are entitled to one vote for each share. The underwriters' election to exercise their over-allotment option expired unexercised on January 15, 2018 and, as a result, 750,000 Founder Shares were forfeited. At September 30, 2018 and December 31, 2017, there were 6,025,842 shares and 6,734,320 shares of common stock issued and outstanding, respectively, excluding 18,974,158 shares and 19,015,680 shares of common stock subject to possible redemption, respectively.

6. FAIR VALUE MEASUREMENTS

The Company follows the guidance in ASC 820 for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

The fair value of the Company's financial assets and liabilities reflects management's estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

- Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

The following table presents information about the Company's assets that are measured at fair value on a recurring basis at September 30, 2018 and December 31, 2017, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

Description Assets:		Level	Sej	ptember 30, 2018	D	December 31, 2017
Marketable securities held in Trust Account		1	\$	202,145,033	\$	200,119,137
	6					

7. SUBSEQUENT EVENTS

The Company evaluates subsequent events and transactions that occur after the balance sheet date up to the date that the financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

References in this report (the "Quarterly Report") to "we," "us" or the "Company" refer to Leisure Acquisition Corp. References to our "management" or our "management team" refer to our officers and directors, references to the "sponsors" refer, collectively, to Hydra Management, LLC (the "Hydra Sponsor") and Matthews Lane Capital Partners LLC (the "Matthews Lane Sponsor"), and references to the "strategic investor" or "HG Vora" refer to HG Vora Special Opportunities Master Fund, Ltd. The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Special Note Regarding Forward-Looking Statements

This Quarterly Report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act that are not historical facts, and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Form 10-Q including, without limitation, statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the Company's financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as "expect," "believe," "anticipate," "intend," "estimate," "seek" and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management's current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from these anticipated in the Grompany's Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (the "SEC"). The Company's securities filings can be accessed on the EDGAR section of the SEC's website at www.sec.gov. Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

Overview

We are a blank check company incorporated on September 11, 2017 in Delaware and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, recapitalization, reorganization or similar business combination with one or more target businesses. We intend to effectuate our Business Combination using cash from the proceeds of our Initial Public Offering, the sale of the Private Placement Warrants that occurred simultaneously with the completion of our Initial Public Offering, the sale of the Private Placement Units under the Contingent Forward Purchase Contract, our capital stock, debt or a combination of cash, stock and debt.

The issuance of additional shares of our stock in a Business Combination:

- may significantly dilute the equity interest of investors;
- may subordinate the rights of holders of our common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change in control if a substantial number of shares of our common stock is issued, which may affect, among other things, our ability to use our net
 operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights of a person seeking to obtain control of us; and
 may adversely affect prevailing market prices for our common stock and/or warrants.

Similarly, if we issue debt securities, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial Business Combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the
 maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions, and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;

- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, and execution of our strategy; and
- other purposes and other disadvantages compared to our competitors who have less debt.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete a Business Combination will be successful.

Results of Operations

Our only activities from inception to September 30, 2018 were organizational activities and those necessary to prepare for the Initial Public Offering and identifying a target for our Business Combination. We do not expect to generate any operating revenues until after the completion of our Business Combination. We expect to generate non-operating income in the form of interest income on cash and marketable securities. We will incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses in connection with completing a Business Combination.

For the three months ended September 30, 2018, we had net income of \$577,649, which consists of interest income on marketable securities held in the Trust Account of \$969,387, offset by operating costs of \$248,187, an unrealized loss on marketable securities held in our Trust Account of \$13,426 and a provision for income taxes of \$130,125. In addition, we received a \$600,005 reimbursement of due diligence expenses that we incurred in connection with evaluating a potential Business Combination that did not materialize.

For the nine months ended September 30, 2018, we had net income of \$1,398,825, which consists of interest income on marketable securities held in the Trust Account of \$2,515,625, offset by operating costs of \$729,859, an unrealized loss on marketable securities held in our Trust Account of \$13,915 and a provision for income taxes of \$373,026. In addition, we received a \$600,005 reimbursement of due diligence expenses that we incurred in connection with evaluating a potential Business Combination that did not materialize.

For the period from September 11, 2017 (inception) through September 30, 2017, we had a net loss of \$5,000, which consists of formation and operating costs.

Liquidity and Capital Resources

As of September 30, 2018, we had marketable securities held in the Trust Account of \$202,145,033 (including approximately \$2,145,000 of interest income, net of unrealized losses) consisting of U.S. treasury bills with a maturity of 180 days or less. Interest income on the Trust Account may be used by us to pay franchise and income taxes. Through September 30, 2018, we withdrew \$475,814 of interest earned on the Trust Account to pay franchise and income taxes.

We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less deferred underwriting commissions) to complete our Business Combination. We may withdraw interest to pay franchise and income taxes. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

As of September 30, 2018, we had cash of \$1,754,266 held outside the Trust Account. We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

For the nine months ended September 30, 2018, cash used in operating activities was \$779,622. Net income of \$1,398,825 was mainly offset by interest earned on marketable securities held in the Trust Account of \$2,515,625 and an unrealized loss on marketable securities held in our Trust Account of \$13,915. Changes in operating assets and liabilities provided \$323,263 of cash from operating activities.

HG Vora has entered into a contingent forward purchase contract with us to purchase, in a private placement for gross proceeds of \$62,500,000 to occur concurrently with the consummation of our Business Combination, 6,250,000 Units on the same terms as the sale of Units in the Initial Public Offering at \$10.00 per unit. The funds from the sale of the Private Placement Units may be used as part of the consideration to the sellers in the Business Combination; any excess funds from the Private Placement Units may be used for working capital in the post-transaction company. This commitment is independent of the percentage of stockholders electing to redeem their shares and provides us with an increased minimum funding level for the Business Combination. HG Vora's obligation to purchase our Units under the contingent forward purchase contract is contingent upon, among other things, HG Vora approving the Business Combination, which approval can be withheld for any reason.

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, our Hydra Sponsor, an affiliate of the Matthews Lane Sponsor and HG Vora (the "Funding Parties') have committed an aggregate of \$1,000,000, in accordance with the unsecured promissory notes we will issue to the Funding Parties, pursuant to the expense advance agreement between us and the Funding Parties, to be provided to us and from which we may draw down from time to time in the event that funds held outside of the trust are insufficient to fund our expenses after the Initial Public Offering and prior to our Business Combination (including investigating and selecting a target business and other working capital requirements) and the Funding Parties may, but are not obligated to, Ioan us additional funds as may be required. If we complete our Business Combination, we would repay such loaned amounts. In the event that our Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$1,000,000 of such loans may be convertible into warrants, at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the Private Placement Warrants.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating a Business Combination are less than the actual amounts necessary to do so, we may have insufficient funds available to operate our business prior to our Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our public shares upon completion of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination. Subject to complete our Business Combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the Trust Account. In addition, following our Business Combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Off-balance sheet financing arrangements

We have no obligations, assets or liabilities which would be considered off-balance sheet arrangements as of September 30, 2018. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

Contractual obligations

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than an agreement to pay our Hydra Sponsor a monthly fee of up to \$10,000 for office space, utilities and secretarial and administrative support provided to the Company. We began incurring these fees on December 1, 2017 and will continue to incur these fees monthly until the earlier of the completion of the Business Combination and the Company's liquidation.

The underwriters are entitled to underwriting discounts and commissions of 5.5%, of which 2.0% (\$4,000,000) was paid at the closing of the Initial Public Offering, and 3.5% (\$7,000,000) was deferred. The Deferred Discount will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement. The underwriters are not entitled to any interest accrued on the Deferred Discount.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. The Company has identified the following critical accounting policy:

Common Stock subject to possible redemption

We account for our common stock subject to possible conversion in accordance with the guidance in Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." Common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. Our common stock features certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, at September 30, 2018 and December 31, 2017, the common stock subject to possible redemption is presented at redemption value as temporary equity, outside of the stockholders' equity section of our balance sheet.

Recent accounting pronouncements

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's condensed financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Following the consummation of our Initial Public Offering, we invested the funds held in the Trust Account in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest solely in United States Treasuries. Due to the short-term nature of the money market fund's investments, we do not believe that there will be an associated material exposure to interest rate risk.

We have not engaged in any hedging activities since our inception. We do not expect to engage in any hedging activities with respect to the market risk to which we are exposed.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Evaluation of Disclosure Controls and Procedures

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2018. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15 (e) and 15d-15 (e) under the Exchange Act) were effective.

Changes in Internal Control Over Financial Reporting

During the most recently completed fiscal quarter, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

None.

ITEM 1A. RISK FACTORS.

Factors that could cause our actual results to differ materially from those in this Quarterly Report are any of the risks described in our Annual Report on Form 10-K filed with the SEC. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. As of the date of this Quarterly Report, there have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K filed with the SEC, except we may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On December 5, 2017, we consummated our Initial Public Offering of 20,000,000 units, with each unit consisting of one share of our common stock, and one-half (1/2) of one warrant, each whole warrant entitling the holder to purchase one share of common stock at a price of \$11.50. The units in the Initial Public Offering were sold at an offering price of \$10.00 per unit, generating total gross proceeds of \$200,000,000. Morgan Stanley & Co., LLC acted as the book running manager and EarlyBirdCapital, Inc. acted as lead manager of the offering. The securities sold in the offering were registered under the Securities Act on registration statement on Form S-1 (No. 333-221330). The SEC declared the registration statement effective on December 1, 2017.

We paid a total of \$4,000,000 in underwriting discounts and commissions and approximately \$548,735 for other costs and expenses related to the Initial Public Offering. In addition, the underwriters agreed to defer \$7,000,000 in underwriting discounts and commissions, and up to this amount will be payable upon consummation of the Business Combination. After deducting the underwriting discounts and commissions (excluding the deferred portion of \$7,000,000 in underwriting discounts and commissions, which will be released from the Trust Account upon consummation of the Business Combination, if consummated) and the estimated offering expenses, the total net proceeds from our Initial Public Offering and the private placement was \$202,276,265, of which \$200,000,000 (or \$10.00 per unit sold in the Initial Public Offering) was placed in the Trust Account.

There has been no material change in the planned use of proceeds from our Initial Public Offering as described in our final prospectus dated December 1, 2017 which was filed with the SEC.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

None.
